IPv4 End Game and Business processes

RIPE NCC

IPv4 last allocations/assignments

- IPv4 will run out soon…

- How will we handle the last distributions before reaching the last /8 (if proposal 2010-02 accepted)
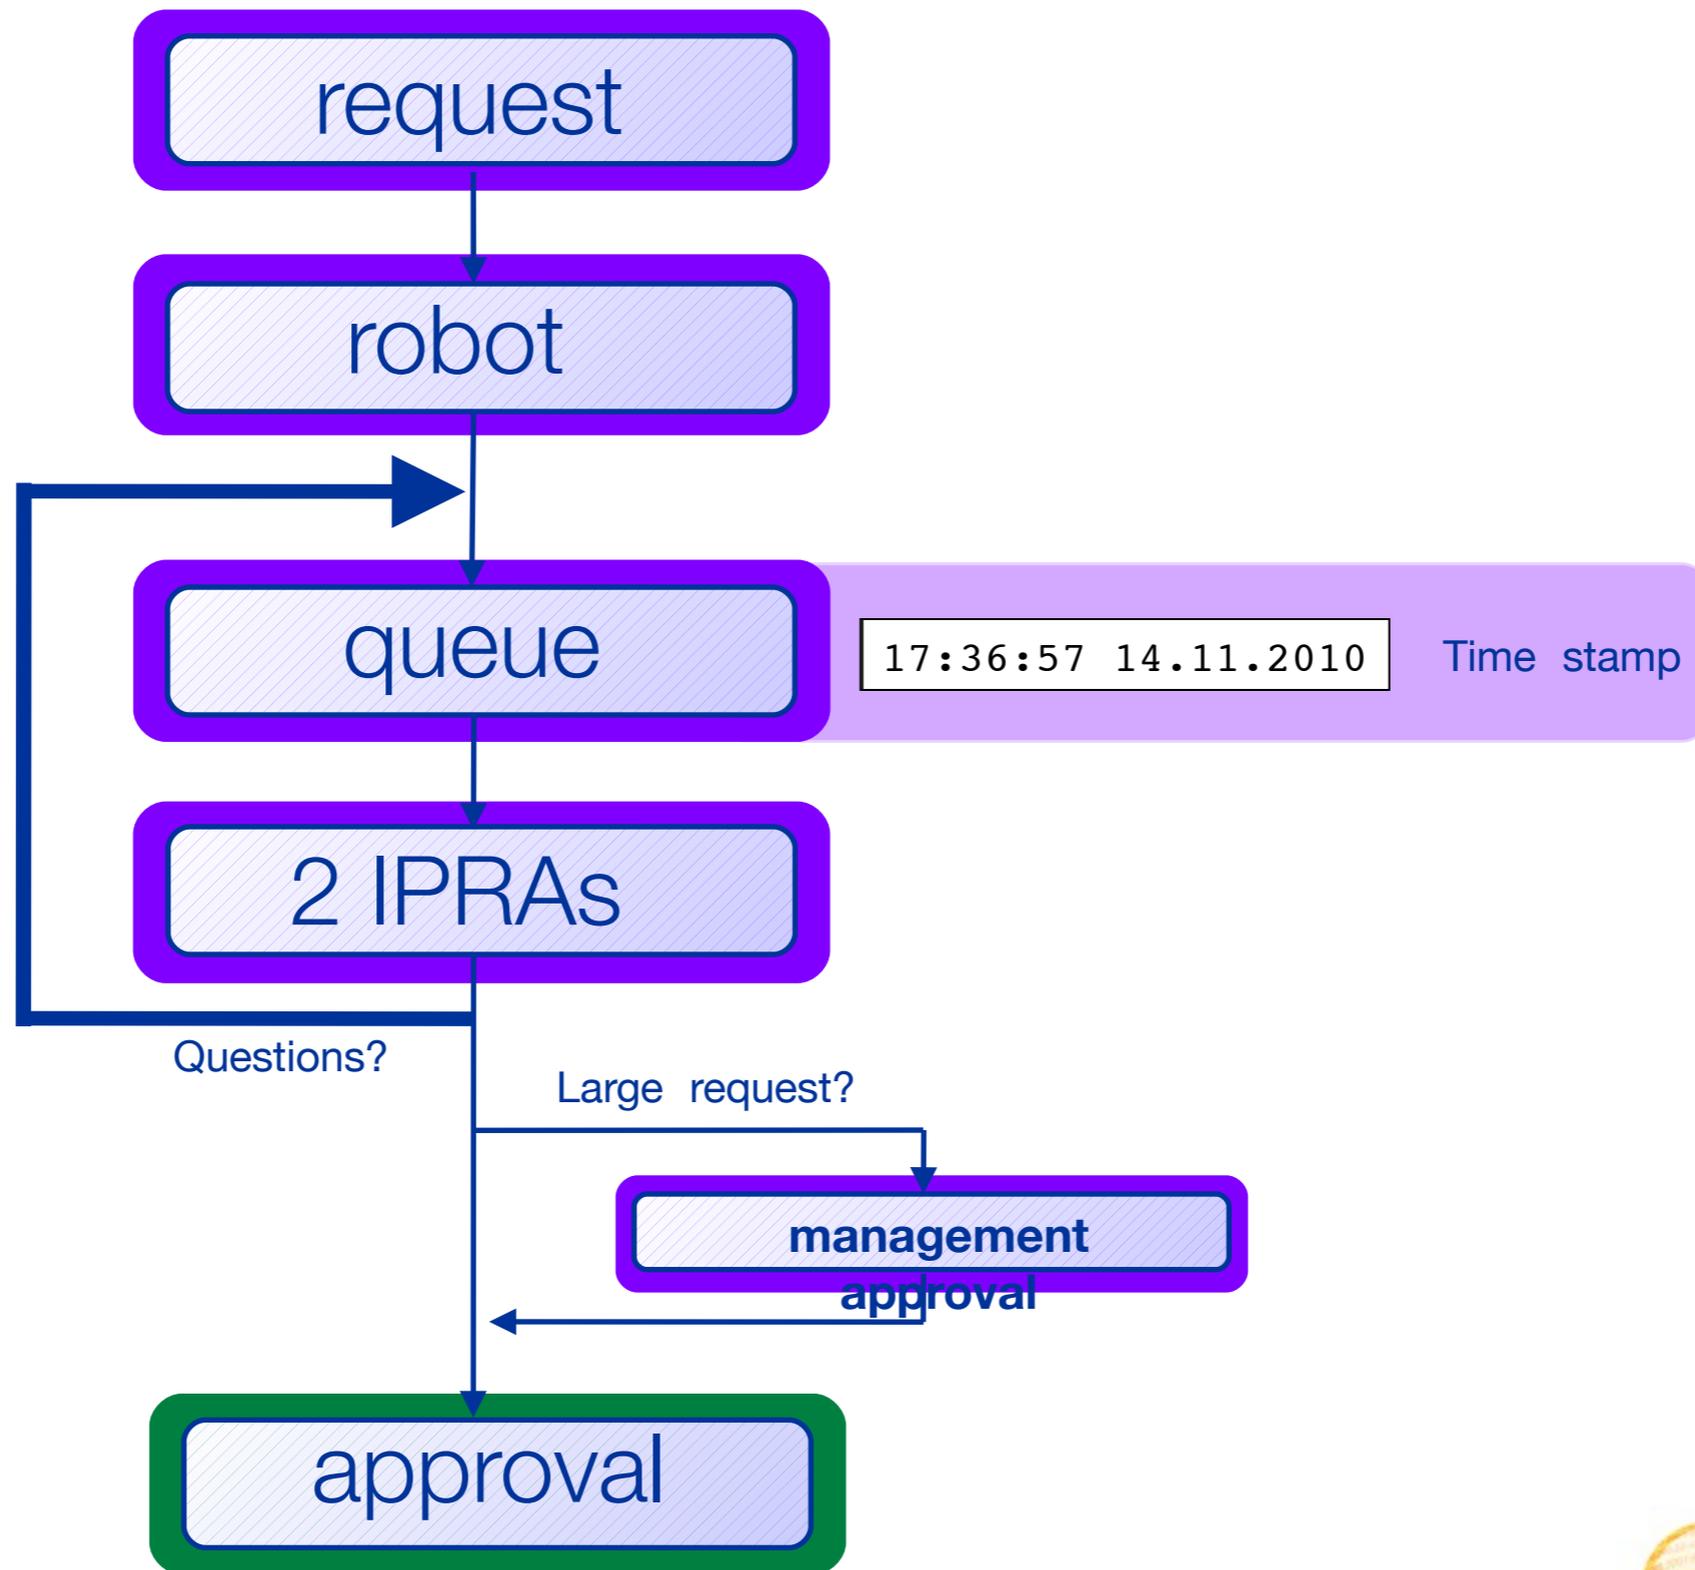

IPv4 last allocations/assignments

- NO major changes!

- Registration Services Processes currently in line with RIPE Policies (KPMG Audit)

- Fine tuning to further increase:

  - Transparency

  - Consistency

Transparency

- Publish all RIPE NCC Registration Services evaluation procedures:

  - The requested information and documentation

  per type of Resource request and service.

  - Starting with IPv4 Procedures:

    - First Allocation

    - Additional Allocation

    - Assignments (PA/PI)

- Upcoming soon

Consistency

Questions?

Large request?

management approval

```
approval
```

Resource Management

- No more designated pools (PI, Anycasting)

- Quarantined resources immediately reissued when needed

- Multiple prefixes possible for one address space approval

- When? One month of address space left!
