DE-CIX News

- Started to replace F10 Terascale with Exascale (Edge)
- Added two MLX32 to the core (2x2x256 line rate 10GE)
- NewTelco latest DE-CIX enabled site (total 8 colo operators with 13 sites)
- Approx. 1.4TBps peak traffic
- 50+ % of customers are v6 enabled (goal 100% by EOY 2011; watch out for news)
- 800+ 10GE ports operational
- New hires: Supporter/Webdeveloper/Engineer (total 18)
- Celebrated 15 Yr Anniversary, first customer summit

The future

- Goal: 65 new networks in 2010 (50-60 for the last 5 consecutive years), mainly from Eastern Europe
- One-stop shop offer key to many customers, new colo space available at Interxion FRA5
- We will expand the portal. Finally. Yes – we promise.
- Currently evaluation of CEX deployment (Customer round table showed mixed results)
- Expansion of Consulting business (Focus middle-east; succesfully finalized first project for a regulator in the region; seperate team in DE-CIX)
